

PSAEducation.com

CUSTOM LEARNING PORTAL PACKAGES

Extend the PSAEducation.com experience with a custom branded microsite. Various hosting packages are available to meet the content hosting and budget needs of companies of any size.

CERTIFICATION ADMINISTRATOR ACCESS

Features:

- Three (3) administrative login accounts with access to the certification tracking tool, allowing you to track employee certifications, run reports, and dictate reminder messages

CUSTOM LEARNING PORTAL TIER 1

Features:

- Certification administrator access
- A fully custom, private subdomain of psaeducation.com (company.psaeducation.com)
- A single custom landing page branded for the member company. The landing page will include the member company's logo, custom messaging, and links to outside resources
- Custom course packages may be created from the listed PSA training content. The price structure for the training will be negotiated based on course selections
- Up to six (6) concurrent courses provided by the member company

CUSTOM LEARNING PORTAL TIER 2

Features:

- Certification administrator access and Tier 1 features
- Up to six (6) additional pages can be linked to behind the main landing page
- Up to twenty-four (24) concurrent courses may be provided by the member company

CUSTOM LEARNING PORTAL TIER 3

Features:

- Certification administrator access, Tier 1 features, and Tier 2 features
- Unlimited content hosting on a fully custom, private subdomain of psaeducation.com (company.psaeducation.com)

**Additional User/Transaction Fee Applies*

Supports hosting, connectivity, maintenance, auditing, administration, technical support, testing and reporting components for the Learning Management System (LMS) and all hosted courses. For all online training, SCORM compliant courses loaded by the member company a user fee will be assessed.
